### **DETAILED ACTION**

1. This Office action is in response to the communication received on February 10, 2005.

Claims 1-19 are pending in the application.

### **Notes**

2. Upon reviewing the claims, the examiner notes that there appears to be different set of invention between claims 1-10 and 11-19. See restriction below.

### ***Election/Restrictions***

3. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 1-10, drawn to a method and apparatus of maintaining a record of information, classified in class 705, subclass 9.
  - II. Claims 11-19, drawn to a reminder and actioning method, classified in class 709, subclass 229.

The inventions are distinct, each from the other because of the following reasons:

4. Inventions I and II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention II has separate utility such as a message having an identifier of a page. See MPEP § 806.05(d).

5. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Art Unit: 3623

6. Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Group II, restriction for examination purposes as indicated is proper.

7. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
